Biography

Beyza Günsel Sürücü is an Associate at Tax Department of Erdem & Erdem. She provides tax advisory and tax litigation services for national and international companies in relation to tax and customs disputes.

The scope of the services that she provides includes the evaluation of the tax inspection procedure and the tax inspection report, application to the Report Evaluation Committee, management of the pre-assessment and post-assessment reconciliation procedures, initiation of the tax litigation process and the individual application procedure before the Constitutional Court.

Beyza Günsel Sürücü provides legal advisory services in relation to company restructuring projects by considering the tax law aspects of the transactions such as merger, spin-off, company type amendment, capital in kind contribution, asset deal. The scope of the services includes the determination of the most efficient restructuring alternative and also the implementation stage of the relevant transaction.

She provides tax and legal advisory services regarding the analysis of the technical insolvency/bankruptcy situations and determination of legal alternatives for the elimination of the referred financial situations. Additionally, she provides legal and tax advisory services in relation to corporate law transactions such as general assembly meetings, capital increase and decrease.
